

## IIE Bachelor of Social Science

### School of Social Science

The IIE Bachelor of Social Science degree is aimed at students who strive to understand, analyse, describe, and explain the human world and their position within it, just as scientists attempt to describe and comprehend the natural world. The IIE Bachelor of Social Science Degree is designed to help students make sense of our rapidly changing global culture. Equally relevant to the professional world of work and the world of knowledge aims to provide students with the skills needed to contribute to the social and cultural fabric of

the community, region, and the world and to become truly global citizens.

Social sciences are a group of disciplines that focus on how the mind works, how people behave in society, and the impact their behaviour has on one another, other societies and the environment. This programme provides a rich basis of skills and knowledge for graduates to apply directly within the workplace, or to build on through further studies in Honours or a postgraduate programme.
