

IIE MSA CAMPUS LIVING

Achieve your independence through our immersive student experience!

Our on-campus student accommodation, also referred to as 'Res', combines modern architectural design with a safe and secure living environment. In between studies and on-campus activities, you'll be able to kick back in your room and enjoy some quiet time. You can also join in with the tight-knit Res community and hang out in the communal entertainment areas to blow off some steam. Living in Res will also give you the opportunity to bond with your fellow students and have a great time along the way.

Our residences offer four-bedroom or six-bedroom apartments.

Our state-of-the-art facilities includes:

Bedrooms with built-in cupboards, a bed, bedside table, desk, chair and curtains – bedside lamps and linen are not supplied

Internet access points in each bedroom, giving you 24-hour online computing and library access (computers are not supplied in rooms)

Kitchen facilities per 4 or 6 bedroom apartment, with a four burner/plate stove, fridge, table, chairs and a microwave oven

Bathrooms and showers per 4 or 6 bedroom apartment

Television and games rooms

Communal lounges

Outdoor braai areas

Laundry facilities

On-site car parking

Here are some of the reasons why it's cool to stay on our campus:

- We offer safe and secured residences: IIE MSA residences have 24-hour security and access control for ease of living for our students
- You are able to build relationships, learn from other students - whether formally or informally and have an opportunity to collaborate on projects or fun on-campus activities.
- Living on campus provides less worries about commuting to attending classes, which gives students enough time to rest

Residence 4 has a canteen, accessed by all students, that sells hot meals at selected times

Living on campus is an opportunity for students to connect with other students - whether as a new or returning student. It is also an opportunity to establishing a home away from home for yourself.
